👤 Profile

Young system analyst who wants to enter the market as a programmer or tester. I try to be orderly, safe and precise when working. I don't have work experience but when it comes to making a team I can adapt, I prefer to follow orders rather than command.

🎓 Education

Higher Technician in Software Analysis and Development
Sedes Sapientiae
Gualeguaychú, Entre Ríos

Title bachelor with orientation in Social Sciences and Humanities
Instituto Pio XII
Gualeguaychú, Entre Ríos

💼 Projects

Portfolio ⧉

In my portfolio I have some simple projects, all oriented to web development, although it is not shown, I have also developed REST api's with Node.js and Laravel 7 but unfortunately they are projects that have not been finished
